November 1, 2017

Dear Valued Customer:

Thank you for your support of the Gentex product line. We truly value your business, and strive to continue to provide you with the highest quality products.

Effective January 1, 2018, pricing on four of our smoke alarm models will change due to component costs and product mix.

Prices will decrease on the newer Gentex S1209 product line. The S1209 product line offers the added functionality of Dualink[®] capability of the products to tandem interconnect with the Gentex CO1209 Series and Gentex GN-503 Series CO and combination smoke/CO alarms.

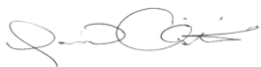

Prices will increase on the Gentex 9123 and 9123F models. Pricing will not change on the Gentex 9123T, 9123H, 9123TF, 9123HF.

Gentex has always worked hard to maintain pricing consistency across our various product lines, and feel these changes best position you, our valued customer, to take advantage of the added benefits of our newest smoke alarm products.

We will continue to honor any previously quoted pricing on the 9123 series models above if the order is placed within the next 90 days, as long as verification of the quote is provided.

Thank you for your continued support.

Best regards,

Dave Christian
Operations Manager
