May 15, 2017

Effective July 1, 2017, Gentex will discontinue sales of the GN-300 Series of smoke alarms. The affected model numbers are below:

917-0049-002	GN-300
917-0050-002	GN-303

We will continue to offer the 9123 Series and S1209 Series of smoke alarms, which are each direct replacements for the GN-300/303.

Please see the cross reference below for replacement model numbers:

<u>Old Model</u>	<u>Replacement Models</u>
GN-300	9123 or S1209
GN-303	9123 or S1209

After September 30, 2017, we will not be able to accept returns on the affected alarms unless it is an in-warranty situation. If you anticipate the need for these units for a new installation or for an existing job, please order them as soon as possible, as remaining quantities are limited.

Thank you for your continued support.
